Note: It is in every student's interest that PCA is able to proactively address areas where special assistance may be required. Any undisclosed learning or behavioral challenges has a high probability of negatively impacting student growth and will result in a recommendation to place them in a program designed to address special needs. Any disclosed concerns will be evaluated, in an effort to determine if PCA has the necessary resources to accommodate their continued growth and success. It is the mission of PCA to meet as many diverse needs as possible.
